Foliar Iron Fertilizer with seaweed extract

GUARANTEED ANALYSIS:

Total Nitrogen (N) .......................... 3.00%
  2.95% Urea Nitrogen
  0.05% Other Water Soluble Nitrogen
Iron (Fe) ........................................ 3.00%
  3.0% Chelated Iron (Fe)

Derived From: Urea, Seaweed Extract, Iron DTPA, and Iron Citrate.

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.aapfco.org/metals.htm

F001962 For Commercial Use Only

Application Recommendations:

- For use during active growth when plants are in full leaf
- Best time to make applications is late afternoon or early evening when the plants are slightly moist.
- Do not apply in hot sun or at temperatures above 80°F
- Do not apply to open blooms
- Shake well before use

Application Rates:

The exact rate of OFE depends on the needs of the crop, the time of application, the nutritional reserve in the soil, the intensity of irrigation and other applied fertilizers.

*Mix the selected rate in a minimum of 50 gallons of water per acre (1 gal/1000 sq ft)*

**Fruit trees, perennials, shrubs and trees (before flower buds open)**

Preventative .............................................................. 1.25 – 4.25 pints/acre
Curative ................................................................. 1.75 – 3 quarts/acre
*(As needed, a minimum of 2 preferably 3 applications 10-14 days apart)*

**Annual plants and flowers, vegetables and herbs (before flower buds open)**

Preventative .............................................................. 14 – 27 ounces/acre
OFE 3-0-0   Page 2

NET CONTENTS: 2.5 gallons (9.46 L)
NET WEIGHT: 23.98 lb (10.87 kg)

Curative ............................................................................. 27 – 55 ounces/acre
Greenhouse crops …… …… …27 - 33 ounces/acre (0.60 – 0.75 ounces/1000 sq. ft)
(As needed, a minimum of 2 preferably 3 applications 10-14 days apart)

Landscape plantings (before flower buds open)
Perennials, shrubs and trees................................................. 2.0 – 3.75 tbsp/gal
Annual plants and flowers ................................................. 1.0 - 1.5 tbsp/gal
(Mix with water and spray evenly on the leaves until they drip.)

Notes:

• OFE is a foliar fertilizer and is a supplement to normal soil fertilization, not as a substitute
• OFE is best used as a preventative to prevent iron deficiency
• Plant response is dependent upon the plant, varietal differences, growth stage and climatic conditions. It is recommended that the first application be made at the lowest rate indicated.
• If combined with a wetting agent, do not use a concentration of OFE higher than 1.25 oz/gallon.
• Close container tightly after each use.

Keep out of reach of children and pets. Do not eat or drink the product. Do not use as animal feed. Store in cool, dry conditions. Store as cool as possible - below 77°F, but above freezing. Keep out of direct sunlight.

NOTICE TO BUYER AND SELLER: Seller warrants that this product conforms to the description on this label and is reasonably fit for the purposes stated on this label when used and stored in accordance with the directions for use. This warranty does not extend to use of this product contrary to label directions or under conditions not reasonably foreseeable by the Seller, and Buyer and User assume the risk of any such use. To the extent consistent with applicable law, Seller disclaims all other warranties, express or implied, including any warranty of fitness or merchantability. To the extent consistent with applicable law, Seller shall not be liable for consequential, special or indirect damages resulting from use or handling of this product, and Seller’s sole liability and Buyer’s and User’s exclusive remedy shall be limited to refund of the purchase price. This product is sold only for uses stated on its label.
